

CHAPTER 48.1-09-02 IMPORTATION REQUIREMENTS

Section

- 48.1-09-02-01 Importation Requirements
48.1-09-02-02 Importation Requirements - Waiver

48.1-09-02-01. Importation requirements.

Nontraditional livestock may be imported into North Dakota only after the owner of the nontraditional livestock:

1. Obtains a certificate of veterinary inspection. The certificate of veterinary inspection must include specific disease test results, vaccinations, and health statements required by this chapter.
2. Obtains an importation permit number from the office of the state veterinarian. The state veterinarian may deny a request for an importation permit number if the state veterinarian has information that an animal:
 - a. Has not met the disease testing, vaccination, or identification requirements set forth in North Dakota Century Code title 36 or this title, or as otherwise required by the state veterinarian;
 - b. Has not met any pre-entry quarantine conditions imposed by law;
 - c. Has been exposed to, may have been exposed to, is infected with, or may be infected with any contagious or infectious disease;
 - d. Is or may originate from an area or premises under quarantine or other form of official or regulatory action relating to contagious or infectious disease; or
 - e. May be a threat to the health and well-being of the human or animal population of the state, or both.

History: Effective July 1, 2016.

General Authority: NDCC 36-01-08

Law Implemented: NDCC 36-01-08, 36-01-12, 36-01-34, 36-14-11

48.1-09-02-02. Importation requirements - Waiver.

The requirement for a certificate of veterinary inspection requirement for raptors may be waived if imported for less than 30 days for hunting purposes, provided the falconer is in compliance with all wildlife regulations.

History: Effective April 1, 2026.

General Authority: NDCC 36-01-07

Law Implemented: NDCC 36-01-07
